

SAIF AHMAD

Backend Developer

ahmads87237@gmail.com | +977 9811763721 | github.com/ahmadsaif12 | Kathmandu, Nepal

PROFESSIONAL SUMMARY

Backend Developer with expertise in Python, Django & Node.js, complemented by hands-on DevOps experience with Docker, Kubernetes, and AWS. CCNA certified with a solid foundation in networking. Currently building scalable REST APIs at Arcodify Agency, focused on clean architecture, performance optimization, and cloud-native deployment.

TECHNICAL SKILLS

Languages	Python, JavaScript, Go, TypeScript
Backend	Django, Node.js, Express, Django REST Framework
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Database	MongoDB, PostgreSQL, Redis
DevOps & Cloud	Docker, Kubernetes, AWS (EC2/S3/Lambda), CI/CD, Prometheus, Git
Networking	CCNA Certified — Routing, Switching, IP Subnetting, Network Security

EXPERIENCE

Backend Developer

Arcodify Agency

Kathmandu, Nepal — 2024 – Present

- Design and maintain production REST APIs using Python (Django) and Node.js (Express) with MongoDB and PostgreSQL databases.
- Containerize microservices with Docker, orchestrate deployments on Kubernetes, and manage CI/CD pipelines for automated releases.
- Deploy and monitor cloud infrastructure on AWS (EC2, S3, Lambda) with Prometheus-based observability.
- Implement Redis caching strategies to optimize API response times and reduce database load.
- Collaborate in agile sprints, perform code reviews, and maintain technical documentation.

EDUCATION & CERTIFICATION

CCNA (Cisco Certified Network Associate)

Broadway Infosys

Tinkune, Kathmandu — 2024

- Hands-on training in routing protocols (OSPF, EIGRP), switching (VLAN, STP), IP subnetting, and network security.

PROJECTS

Blood Bank Management System

Full-stack platform for blood donations, hospital requests & real-time inventory. React, Node.js, MongoDB, JWT, Docker.

Edemy LMS

Learning Management System with course creation, video streaming & Stripe payments. React, Node.js, MongoDB, Cloudinary.
